

PAPATYA

364 PLUS TABLE BASE ASSEMBLY INSTRUCTION

Material Identification

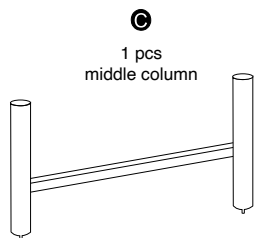

A
2 pcs
plate.

B
2 pcs
threaded rod

D
1 pcs
flange

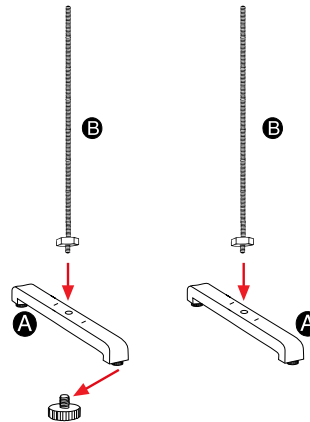

C
1 pcs
middle column

E
2 pcs
nut

1

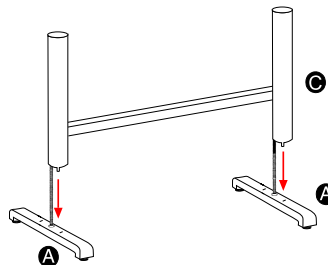

Locate the threaded rod (B)
into the round hole on the
plate (A)

The adjustable feet allow
the balance to be
adjusted for stable
placement on the floor.

3

Position the middle part (C)
onto the base profile (A).

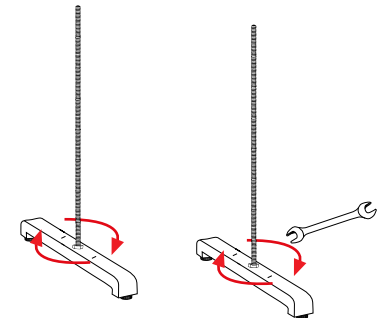

Attention

Carefully attach the middle part (C) to
the plate (A).

Ensure that the nails on the
bottom side of the column is aligned properly
with the rectangular holes on the plate (A).

2

Tighten the threaded rod by rotating
in the direction of arrow.

4

Fixing the flange;

-Place the table base in a vertical
position and lightly fasten the flange
to the threaded rod using the nut.

-Lay the table base on the floor and
fully tighten the nut to secure the flange.
